

Police and Crime Plans Map

This interactive map complements [our review](#) of police and crime plans across England and Wales.

The map demonstrates:

- How the needs of the population in a PCC area were assessed;
- What needs were identified; and
- What priorities have been established as a result to meet these needs, reduce crime and prevent harm

You can view the map on [our website](#) or alternatively view it on [Google Maps](#).

To view the map on full screen, press Ctrl and scroll onto the map. Click on the expand icon that appears on the top right-hand corner of the map.

To view the priorities in a local area, zoom into the map, and click on your PCC area. This will give you a link for the plan, the key vulnerabilities and priorities identified by the Police and Crime Commissioner.
